

Global OpEx Solutions

Apr 18-Aug 22, 2012—Webex.

Course Code: BTB-V01-W

Skipping the basics and implementing Lean or 6σ has cost companies unnecessary radical changes resulting in a failed or mediocre operational excellence journey. Implementing and ensuring the basics to provide a stable foundation is the key preparation required for a successful and sustainable continuous improvement journey. Participants will learn the components of the basic system which serves as the foundation to implementing a successful and sustainable continuous improvement system. Back to Basics course complements the Integrated Management System course. This course is for both, Leaders and Practitioners, while the Integrated Management System course is primarily for Continuous Improvement Leaders and Facilitators.

Key Topics/Agenda/ Course Code
