

Global Operational Excellence Solutions (Global OpEx Solutions)

Mission and Value

Global OpEx Solutions helps identify strategic areas for improvement and provides effective high-value low-cost solutions for People-Equipment-Material, and Process systems to drive significant productivity improvement through the use of operational excellence tools and systems.

For operations and continuous improvement leaders in manufacturing, service, and government organizations who need to improve operational effectiveness, Global OpEx Solutions is a solutions provider offering consulting, training, and project management.

Unlike tool-driven, radical-system-overhaul solutions, our solutions enable rapid improvement by matching tool-to-problem.

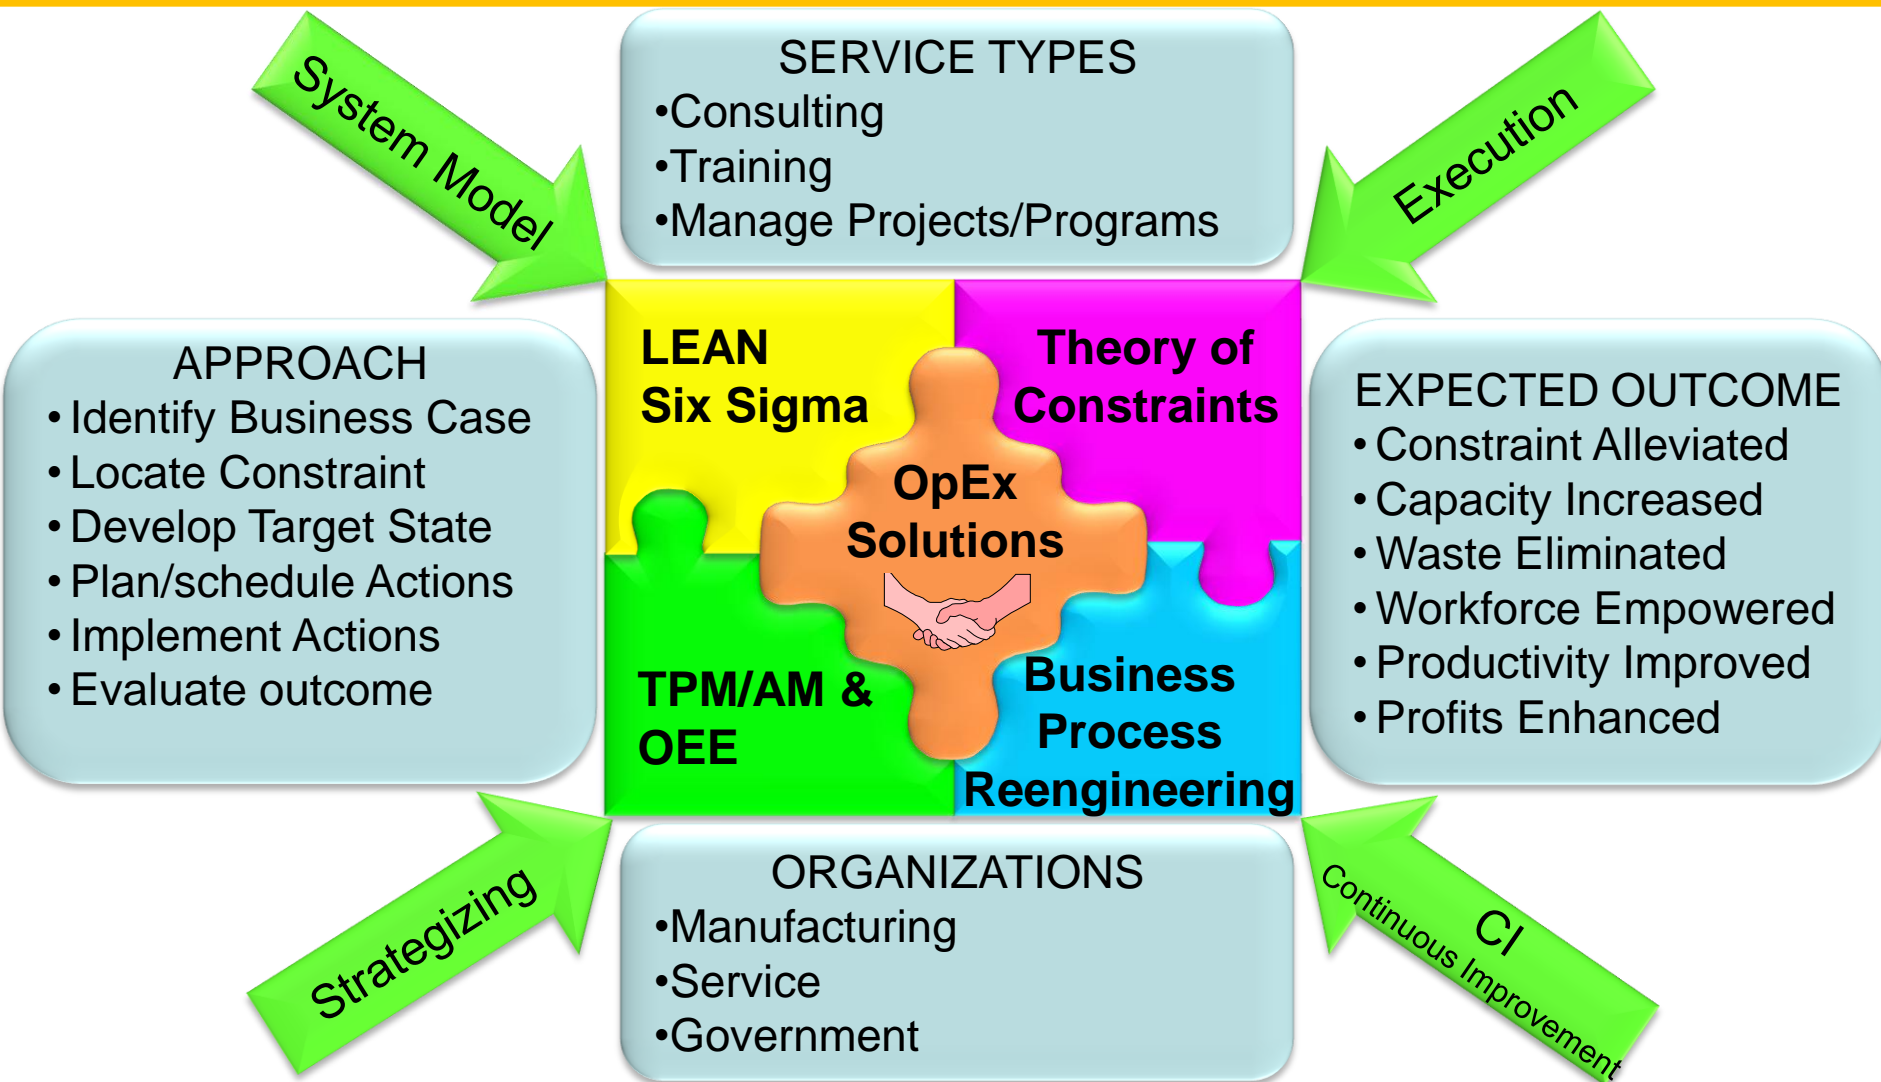

Vision

An organization where companies feel compelled to seek help in order to develop a passion for excellence that will be attained through a culture of ownership and execution and thereby make in-house and indigenous production competitive

Who Needs Help?

Have you recently reduced your OpEx staff?

Does chaos at work ruin your peace of mind or personal time?

Do you have stoppages or waiting?

Do you work overtime?

Do you have a constraint/bottleneck?

Do you have a long lead time?

Do you have a lot of inventory?

Do you have a lot of scrap and rework?

Is the cost of your product high compared to your competition and/or customer willingness to pay?

Is cost reduction one of your initiatives?

Do you lack pride and ownership at the workplace?

Are you driven by a passion for excellence?

If you answered YES to any of the above, this would be a great opportunity!
