

Global OpEx Solutions

1-DAY SEMINAR

Course Code: SCEL-V01

The success of a business is linked to the robustness of its supply chain. Leaders accountable for dynamic supply chains are challenged in driving performance that is responsive, reliable, and agile. Service must be balanced against cost and capital with limited people and time resources.

Leaders are required to make strategic and operational decisions. Both types of decisions need adequate data and analysis.

This seminar will provide a structured approach for leaders to develop and deploy a unique strategy for their supply chain. It also introduces an effective framework for managing sustained competitive performance.
